

Siroflex Sealants & Adhesives

**HMA 2001 Silicone**

Description	Uses	Size	Colour	Box Qty
An acetoxy curing silicone which provides a permanently water tight flexible seal and offers good adhesive properties, making it suitable for use on glass, aluminium, painted surfaces, composite boards and non-porous surfaces.	Sealing around door and window frames. Sealing glass to glass and glass to aluminium. Sealing around pipes and sanitary fixtures. Draught proofing casement windows and doors. Sealing duct work. Topsealing in glazing systems.	310ml cartridge	White, Clear, Brown, Black	25

LMA 2001 Silicone

Description	Uses	Size	Colour	Box Qty
A low modulus acetoxy curing silicone which provides a permanently water tight flexible seal and offers excellent adhesive properties, making it suitable for use on glass, aluminium, painted surfaces, plastics, composite boards and non-porous surfaces.	Sealing around door and window frames. Sealing glass to glass and glass to aluminium. Draught proofing casement windows and doors. Top sealing in glazing systems.	310ml cartridge	White, Clear, Brown	25

LMN 2001 Silicone

Description	Uses	Size	Colour	Box Qty
A one part versatile silicone which can be used for sealing most building, construction and glazing joints. This silicone is neutral cure and almost odourless and cures with atmospheric moisture to form a durable rubber seal.	Sealing joints and perimeter pointing around all types of window and door frames. It will adhere to most common building materials such as PVCu, aluminium, stone, concrete, GRP, steel, brass, painted wood and most porous surfaces.	310ml cartridge	White, Clear, Brown	25

PDC 2001 Decorators Caulk Filler

Description	Uses	Size	Colour	Box Qty
A water based flexible instant acrylic filler that will not crack and is easy to apply. It dries quickly and no sanding is required. Can be over painted in 1-2 hours.	Sealing and filling gaps and cracks where movement can occur, such as those between plasterwork, window and door frames, skirting boards, architraves and dado rails. Use prior to painting or papering to prevent unsightly cracks developing later.	380ml cartridge	White	25

Zwaluw Silicone Remover

Description	Uses	Size	Colour	Box Qty
SILI-KILL is a thixotropic paste which permits easy removal of cured silicone. Allows an absolutely silicone free surface to be achieved. Non flammable.	Can be used on wood, brickwork, concrete, enamel, glass, chinaware, metals such as copper, yellow brass, zinc, lead, aluminium, resins such as PMMA (Perspex), polycarbonate, PVCu and textiles such as wool, polyester and polyamide.	100ml pot	-	25

Siroflex Sealants & Adhesives

SX Everseal Bath & Sanitary Silicone

Description	Uses	Size	Colour	Box Qty
A premium quality acetoxy curing silicone containing anti-fungal compounds to prevent mould growth in areas subject to high humidity levels. Provides a long lasting, flexible watertight seal that is ideal for domestic or municipal applications. Conforms to BS5889 (B) and ISO 11.600 LM Construction.	For sealing around baths, showers, basins and all sanitary ware and will adhere to most non-porous surfaces.	310ml cartridge	White, Clear	25

SX Glazing Silicone

Description	Uses	Size	Colour	Box Qty
A top quality acetoxy curing silicone developed specifically for glazing applications. Also suitable for general purpose applications where adhesion to non-porous surfaces is required. It is tack free within minutes to form a tough elastic rubber seal. Conforms to BS5889 (B) and ISO 11.600 25 LM Construction.	Typical uses include: top sealing in glazing, sealing metal cladding and curtain walling, sealing in refrigeration stores, sealing around worktops. Temperature resistant between -50°C and +180°C. Accommodates movement of + or -25%.	310ml cartridge	White, Clear, Brown, Black, Grey, Bronze	25

SX Universal Silicone

Description	Uses	Size	Colour	Box Qty
A high modulus premium quality silicone that cures quickly to provide a permanently flexible rubber seal.	For a wide range of building, glazing and household applications such as weather sealing around window and door frames, sealing around worktops and topsealing in glazing applications. Accommodates movement of + or - 25%.	310ml cartridge	White, Clear, Brown	25

SX Construction Silicone

Description	Uses	Size	Colour	Box Qty
A fast curing construction grade silicone. Conforms to BS5889 (A) ISO 11.600 G20.	Ideal for a wide variety of general building and glazing trade applications, it has excellent adhesion to many common building materials. Typical uses include: glass butt joints, perimeter pointing, sealing around PVCu, cap beading, sealing cladding panels, sealing around worktops.	310ml cartridge 600ml foil pack	White, Clear, Brown, Black, Grey, Bronze White	25 12

SX Building Silicone

Description	Uses	Size	Colour	Box Qty
A premium low modulus neutral curing silicone. Conforms to BS5889 (A) ISO 11.600 25 LM Glazing and Construction.	Ideal for sealing of construction and dilation joints and perimeter pointing around all types of frames. Adheres to most common building materials such as brick, PVCu, polycarbonate, stone, concrete, GRP, steel, wood, aluminium and glass. Accommodates joint movement of + or -25%	310ml cartridge	White, Clear, Brown, Black, Grey, Bronze, Oak/Caramel	25

SX LMA Silicone

Description	Uses	Size	Colour	Box Qty
A multi purpose low modulus construction grade acetoxy silicone that provides a permanently watertight flexible rubber seal on most common building substrates. Conforms to BS5889 (A) and ISO 11.600 25 LM Construction.	For sealing around window and door frames. Cap glazing and remedial work. For sealing glass to glass and glass to aluminium. Sealing cladding.	310ml cartridge	White, Clear, Brown, Black, Grey, Oak/Caramel	25

Siroflex Sealants & Adhesives

SX Painters Caulk-It

Description	Uses	Size	Colour	Box Qty
A flexible water based filler and sealant that is easy to apply, dries quickly and can be overpainted after 1-2 hours. Conforms to ISO 11.600 F7.5.	For the sealing of gaps and cracks where movement can occur, such as those between plasterwork and window frames, skirting boards and architraves. Use prior to painting or wall papering to fill cracks which will prevent them from developing later. It can also be used as an acoustic sealant.	310ml cartridge	White	25
		400ml cartridge	White, Brown, Magnolia	25

SX All Weather Sealant

Description	Uses	Size	Colour	Box Qty
A universal co-polymer sealant that can be used for a wide range of sealing and weather proofing applications around the home and in industry. Can be applied in wet weather and damp conditions.	Provides a superior adhesion to most surfaces such as glass, aluminium, lead and zinc. Can be used in building, glazing, roofing and ductwork applications and for emergency repairs in wet weather. Overpaintable with most paints and stains.	310ml cartridge	White, Clear, Brown, Black, Grey	12

SX Polysulphide Sealant

Description	Uses	Size	Colour	Box Qty
A one part polysulphide sealant designed to seal joints subject to movement where a tough, flexible, watertight seal is required. This product is easy to apply and has good adhesion to most building substrates. Has excellent durability and is paintable with alkydresin paints.	Suitable for perimeter joints and around wood and metal window and door frames.	400ml cartridge	White, Brown, Black, Grey, Buff	25

SX 2 Part Polysulphide Sealant

Description	Uses	Size	Colour	Box Qty
A 2 part material comprising of a base compound and curing agent. After mixing, the compound cures to form a tough, rubber-like seal with excellent adhesion to most common construction materials. The sealant cures through a chemical reaction and is capable of accomodating cyclic movement during the curing process. The sealant possesses excellent application and tooling characteristics which results in achieving a high standard of finish.	To seal and reseal high movement joints in building and civil engineering structures and for the sealing of joints subjected to rapid movement. Will bond to most building substrates including concrete, brick, stone, wood and mill finish aluminium.	2.5 litre tin	Grey	6

Siroflex Sealants & Adhesives

SX Small Gap Filler

Description	Uses	Size	Colour	Box Qty
Designed to bond PVCu, polycarbonate and certain plastics to themselves or each other. The adhesive has high gap filling properties and has exceptional tack free and thorough curing properties.	It is an ideal all round adhesive for bonding trims and caps and for gap filling in a multitude of applications for the replacement window and door industry.	80ml cartridge	White	25
		300ml cartridge	White	12

SX Mitre Bonding System

Description	Uses	Size	Colour	Box Qty
A super strength bonding kit containing 1 bottle of SX Superglue 50g and 1 tin of SX Activator 200ml. This product is simple to use and gives an instant bond.	Suitable for achieving quick instant bonding in assembly joints such as those in moulding, mitre cornices and PVCu window trim. Ideal for the construction of fitted kitchens and bedrooms and manufacturing wood furniture.	50gm high viscosity Superglue and 200ml Activator	-	12

SX Superglue

Description	Uses	Size	Colour	Box Qty
An ethyl cyanoacrylate based adhesive which has been developed for the bonding of rubbers and plastics such as PVCu. This one component, solvent free adhesive has rapid bonding at room temperature and is economical to use.	Can be used to bond trims and caps on PVCu windows but is also able to bond rubber, rubber foams and filled rubbers. Can be used in conjunction with SX Trade Strength Superglue Activator to achieve an even faster bond.	20gm & 50gm bottles Available in medium or high viscosity	-	25

SX Superglue Activator

Description	Uses	Size	Colour	Box Qty
A low viscosity solvent based cyanoacrylate adhesive activator which contains active components dissolved in a hydrocarbon solvent. SX Activator is low odour and fast acting.	To reduce SX Superglue fixing times and ensure that excess adhesive is fully cured. The activator also reduces odour and blooming. It is particularly useful for production lines such as electronics assembly and PVCu window trim bonding.	200ml & 400ml aerosol	-	12

SX Chemical Anchor Fixing

Description	Uses	Size	Colour	Box Qty
A rapid cure "one shot" two part anchoring cartridge system based on epoxy acrylate resin. Combining the benefits of epoxy resin (toughness, heat and chemical resistance) with the handling and rapid curing of polyester resins.	Designed specifically for fixing threaded rods and rebars into most building substrates and has rapid curing properties with high resistance against harsh conditions such as acids and solvents.	150ml cartridge	Natural	10
		410ml cartridge	Natural	12

Siroflex Sealants & Adhesives

Sureseal Water Resistant Wood Glue

Description	Uses	Size	Colour	Box Qty
<p>An easy to use water resistant glue that bonds wood together to form a permanent and inseparable joint. Ideal for general woodworking and joinery uses. Not suitable for joints subject to continuous water immersion.</p> <p>Conforms to the requirements of category D3/3 and D3/4 of the European Standard EN204.</p>	<p>For applications where a water resistant adhesive is required including joinery use and wall covering.</p>	250ml	Viscous White Liquid	12
		500ml	Viscous White Liquid	12
		1 litre	Viscous White Liquid	12
		5 litre	Viscous White Liquid	4

Sureseal Contact Adhesive

Description	Uses	Size	Colour	Box Qty
<p>A high quality, high tack, low viscosity, one part neoprene contact adhesive. Formulated for non mechanical application, this product has a long open time and is easy to apply.</p>	<p>This highly versatile adhesive will bond a large variety of materials such as plastic laminate, aluminium, sheet lead, hardboard, natural wood veneers, insulation materials and foams to a variety of base materials.</p>	1 litre	-	16
		5 litre	-	5

Sureseal PVA Bonding Agent

Description	Uses	Size	Colour	Box Qty
<p>A multi purpose water based adhesive, primer and sealer. It is suitable for bonding most household and building materials. Conforms to BS 5270.</p>	<p>It is ideal for priming and sealing porous surfaces on walls, ceilings and floors. When added to concrete and plaster it gives easier mixings, toughness and promotes stronger adhesion.</p>	500ml	-	12
		1 litre	-	12
		2.5 litre	-	6
		5 litre	-	4

Glue Screws

Description	Uses	Size	Colour	Box Qty
<p>Glue Screws is a high strength, quick grab bonding adhesive with gap filling properties that adheres to virtually all common building surfaces and replaces nails and screws in a multitude of applications.</p>	<p>For fixing skirting boards, decorative wall panelling, door surrounds, timber and PVCu cladding, floor boards, timber framework, worktops, floor grippers and metal edges, carpet, brick veneer, mouldings, ceramics, plasterboard, cork, laminates and trims. Can be used on rough or smooth surfaces, internally or externally.</p>	300ml cartridge	Beige	12
		380ml cartridge	Beige	12

Solvent Free Glue Screws

Description	Uses	Size	Colour	Box Qty
<p>A ready to use solvent free construction adhesive, based on acrylic dispersions, which adheres to most common building surfaces and replaces nails and screws in a multitude of applications.</p>	<p>Can be used to fix wood and PVCu skirting boards, thresholds, panels, ceramic tiles and ornamental framework on to various substrates such as masonry, concrete, plaster, chip-board, plasterboard and wood. Also suitable for the adhesion of polystyrene foam and polystyrene tiles. At least one surface has to be porous in order to let the adhesive dry.</p>	300ml cartridge	White	12
		330ml squeezable tube	White	12

Zwaluw Mirror Adhesive

Description	Uses	Size	Colour	Box Qty
<p>A one component, gunnable, ready to use construction adhesive based on SBR rubber.</p>	<p>Excellent for glueing mirrors to most building substrates. Can be also used to adhere insulation foam such as polystyrene and polyurethane and decorative and acoustic tiles.</p>	310ml cartridge	Beige	12

Evode Sealants

Fireseal Silicone

Description

Mid modulus sealant (BS5889 Type A). For use in public places, giving good levels of fire resistance, excellent cold smoke seal, tough vandal resistant.
Colour: Black, Brown, Grey, White C20 Cartridge

Intucrylic

Description

Intumescent acrylic joint sealant. High fire resistance in suitable structures, minimal shrinkage. Excellent adhesion to a wide variety of substrates. Can be overpainted.
Colour: Grey, White C30 Cartridge

Intucaulk

Description

Intumescent oil based joint sealant. Swells when subjected to high temperatures to give good fire stopping properties in a wide variety of applications. Can be overpainted.
Colour: Grey, Natural C30 Cartridge

Intugard

Description

Intumescent sealant for fire resistant doors. To assist fire doors to achieve half hour or one hour fire resistance as appropriate. Can be overpainted.
Colour: Brown, White C20 Cartridge

Intustrip

Description

Intumescent pre-formed self adhesive sealant strip. For use as a glazing or compression seal in fire situations. For use on dry surfaces only.
Colour: Brown, Ivory 25m x 12mm x 3mm

Filler Foam

Code	Description
RFG750	Fire rated gun foam 750ml
RFA750	Upside down foam 750ml
RGC500	PU cleaner 500ml
RGA	Gun Applicator

Plastic Wood

Code	Colour	Size
25-560	Pine/Neutral	100ml
25-562	Teak	100ml
25-564	Mahogany	100ml
25-566	Oak	100ml
25-568	Walnut	100ml
25-570	Pine/Neutral	225ml
25-580	Pine/Neutral	350ml
25-582	Teak	350ml
25-584	Mahogany	350ml

Skeleton Guns

Description

Large to suit C30 cartridges
Jumbo

Evo-de Adhesives

Resin 'W' Wood Adhesive Extra Fast

Description

One part synthetic resin emulsion adhesive specially developed for wood bonding operations involving both softwoods and hardwoods. Uses include assembly of framework, jointing by mortice and tenon, dowels, plain or bevelled lap joints.

Colour: White drying to a translucent film

Sizes: 1 litre and 5 litres

Resin 'W' Wood Adhesive Weatherproof

Description

One part water-resistant synthetic resin emulsion adhesive for general bonding of wood assemblies for non-structural applications. Uses include assembly of door frames, windows, drawers, etc. Also suitable for bonding wood veneers and laminated plastics to wood.

Colour: White drying to a translucent film

Sizes: 1 litre and 5 litres

Impact Adhesive 528

Description

General purpose one part polychloroprene rubber/resin contact adhesive. Particularly suitable for bonding decorative laminated plastic sheets to wood and metals. High initial grab, excellent final bond strength. Easy application by serrated spreader.

Colour: Amber

Sizes: 1 litre and 5 litres

Gunnable Adhesive

Description

Multi purpose gap filling adhesive. Powerful bond strength, bonds warped or uneven surfaces. Bonds most non-porous substrates including: metals, wood, MDF, concrete, ceramics and most plastics.

Size: C30, Jumbo

Window Superglue

Description

Fast curing medium viscosity cyanoacrylate adhesive.

Designed for use in PVC-u window fabrication and installation.

Size: 20g Bottle
