## Gum Remover

### CGR 10 - Chewing Gum Remover

No one in public transport, council services, pubs, hotels or education needs reminding about the nuisance of removing chewing gum, sweets, toffee and other 'stickies' careless people leave behind.

Problem solved, with IDC's new SOLVENTLESS spray CGR 10 Chewing Gum Remover.

Simply spray it on to the gum or 'sticky' to freeze it - then shatter and chip it off.

CGR 10 can be used safely on almost any surface, hard or soft, including fabrics and rubber, carpets, upholstery, wood, lino and vinyl.
